

CONTENTS

Vol. 19, no. 3(56), December, 2018

Mohamed Seddik HELLAS, Rachid CHAIB, Ion VERZEA

- Quantitative Risk Analysis Detailed Study of Thermal and Overpressure Risks Case Study 128

Horațiu BULEA

- Dimensional Variation of Aluminium Honeycomb Panel on Circular Cutting with Laser Jet Technology 137

Catrina CHIVU, Cătălin-Iulian CHIVU

- Challenges of Human Resource Management in Long-Distance Study Program 143

Alexandra NIȚOI, Tibor BEDÖ, Daniel MUNTEANU

- A Review about the Technologies of the Additive Manufacturing 151

Adrian DANILA

- An Implementation of the Radon Transformation for Features Estimation of Image-Objects with Symmetry 157

Magdalena BARBU, Catrina CHIVU

- Qualitative Analysis of Risk for Safety Belt Testing Equipment 164

Valentin DIȚU

- Quality Analysis of Roughing Reamers That Use WNMG080408-P30 Mechanical Fixed Cutting Inserts 169

Ramona CLINCIU

- Analysis of the Probability of Acceptance of the Normality Hypothesis by the Goodness-of-Fit Tests 173

- Authors Presentation 178
